

Invest in IPAF Training

Published 18 June 2019

Here at Harris Safety Training, we make it easy for you to invest in IPAF Training. Whether you're based in the UK or Europe, we can provide you with the high quality and affordable IPAF training you require. Training can be held to suit your business needs; either on site at your business or at a local training venue. So whether you are in Neath, Norwich, Nairn or the Netherlands, we can arrange a course to suit you. Once one of our IPAF training courses has been successfully completed, a PAL Card (Powered Access Licence) and/or Certificate is issued, which are recognised internationally. This means that with an Operator's licence you'll be able to operate mobile elevated work platforms not just in the UK, but throughout other countries as well. Our sole aim is to make sure that everyone who needs to work with mobile elevated platforms can do so safely. Our range of IPAF Training courses cover IPAF Operators, MEWPs for Managers, Demonstrator, Harness and more! Our courses are more than just training, they're an investment in your business as a whole. What's more, if you are registered with CITB in the UK, you can claim up to &#pound;70 back for your training grant! If you would like to speak to one of our friendly team with regards to the IPAF training courses we provide, then please call 01905 886379, email us on info@harrissafetytrainingservices.co.uk, Tweet us @HarrisSTS or have a Live Chat with us on our website. We look forward to hearing from you!
